# South Australia, Designed for Life.

This is a place where quality education meets quality lifestyle, where you can experience a sense of wellbeing while also working towards your goals and qualifications.

South Australian Government Schools provide study environments with well-equipped learning spaces, world-class technology and passionate teachers who will nurture your ambitions and work with you to achieve your dreams.

You can choose a school that is near the beach, close to the city centre or in the country. You can also choose a school that fits your

educational pathways – from science and technology to The Arts, hospitality or vocational trade. You can study a variety of subjects while also experiencing the Australian lifestyle. You can learn under Australia's highest education standards, but with a lower cost of living than most other Australian cities. You can live well and learn well.

This is a place where education can be enjoyed, ambition can flourish and dreams can begin. This is a place where you can achieve extraordinary things.

**Welcome to South Australia.**

# Top 10 reasons to study in South Australia

**01**

## South Australia offers a great Australian experience

White sandy beaches, wildlife parks and green hills are all within 20 minutes of the vibrant city of Adelaide. Adelaide's compact size means less time commuting and more time to pursue interests and enjoy a relaxed, active lifestyle.

**03**

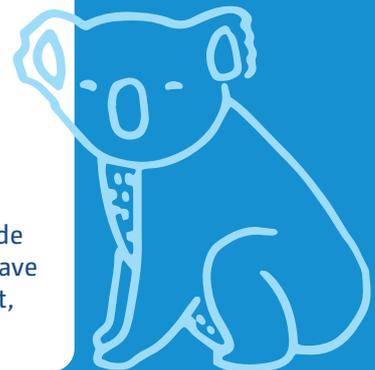

## Our international program is centrally managed

Every aspect of the student's study program, including homestay accommodation, is centrally managed within the Department for Education by a team of caring staff. This makes South Australian government schools unique in Australia.

**02**

## South Australia is an affordable study destination

Adelaide is one of the world's most liveable cities, and one of Australia's most affordable. The cost of living is 16% cheaper than Sydney and 13% cheaper than Melbourne, so students in Adelaide can afford to do more. Students have access to concessions on transport, entertainment and events.

04

**We offer short and long term study programs**

- Primary school and high school programs.
- Affordable tuition fees compared to other Australian schools.
- Individual school matching to best meet the student's interests and ambitions.
- Intensive English and support included in the student's study program.

05

**We offer a quality education program and wide choice of schools**

Adelaide is one of the leading education cities in the world and our universities rank in the top 2% worldwide.

Students can choose a school that is near the beach, close to the city centre or in the country, offering:

- special interest programs and co-curricular activities
- specialist resources for technology, arts, hospitality, sport and VET
- an international student program Manager for support and assistance
- a local school buddy to help students settle into school life.

**06**

**We offer a diverse selection of subjects and activities**

Students have the opportunity to improve their English; join a special interest program; try a new subject like media, design or outdoor education; participate in a school drama production or music band; play a new sport like Australian Rules football, cricket, golf or beach volleyball; experience a new activity like rock climbing, sailing or surfing.

**08**

**We support international students every step of the way**

Our support services begin before the student leaves home and continues throughout their program.

Students receive:

- a pre-departure information pack
- a comprehensive school orientation program
- safety and wellbeing checks
- academic progress reports
- subject and tertiary studies counselling
- 24 hour emergency phone service.

**07**

**Our homestay families are quality accredited**

Our staff are familiar with every homestay family as they personally accredit and monitor them. Along with taking into account the student's preferences, this makes it easier to match students to the best homestay to support them in their studies and enrich their South Australian experience.

09

### **International student success, safety and wellbeing are our priority**

Students have the opportunity to succeed academically but will also grow as a person through participation, open-mindedness, critical thinking, language and friendships.

10

### **South Australia is a home away from home**

The school community, homestay and friends will soon make the student feel at home so they can enjoy everything that South Australia has to offer. South Australia is a place where ambitions are nurtured, opportunities opened and students can achieve extraordinary things.

# How to Choose a School

## Year level

The South Australian schooling system is comprised of 13 years:

	Year Levels	Student Age
Primary School	Reception–Year 7	5–12 years
Junior High School	Years 8–10	13–15 years
Senior High School	Years 11–12	16–18 years

Most schools are either primary or secondary only. Some schools cater for Reception to Year 12. Some schools specialise in senior secondary (Years 11–12).

## Guide to country year level equivalents

These comparisons should be used as a guide only to year level equivalents. They do not represent academic requirements for studying in South Australia.

# School Location

There are over 100 primary and high schools accredited by the Department for Education to deliver the International Student Program. These schools are located throughout metropolitan Adelaide and regional South Australia.

## Metropolitan Adelaide

Adelaide, the capital of South Australia is a dynamic city of approximately 1.3 million people. Surrounded by green parklands, Adelaide is one of the most beautiful and liveable cities in the world. Beyond the inner city, the suburbs of Adelaide stretch from the hills to the sea.

## Regional South Australia

South Australia has many beautiful and varied regions including the Riverland, Flinders Ranges, the Limestone Coast and Kangaroo Island. Regional South Australia offers a uniquely Australian experience, good living and unspoilt natural environment.

# Subject Offering

## Specialised subjects

All South Australian government schools offer a broad range of interesting and specialised subjects within their curriculum. Students who want to try a new subject or have a talent or passion for a particular subject area should consider this when choosing their school.

### Some examples of specialised subjects include:

Science and Mathematics: robotics, forensic science, nanotechnology, astronomy and viticulture

Health and Physical Education: psychology, hospitality, surfing, golf, cycling and outdoor education

The Arts: music, ballet, contemporary dance, textiles and fashion

Technologies: computer-aided design, broadcasting, graphic design, photography and animation

## Special interest programs

All of our high schools also have special interest programs for students with a talent or passion for a particular subject area. Entry into these programs may require evidence of student aptitude, an audition or try-out prior to acceptance. Additional fees may apply. Please refer to the school website listed on the profile for entry criteria and fees where applicable.

## English language

The Intensive Secondary English Course (ISEC) is available at a number of our high schools. Students attending schools without an ISEC program will be placed at the Adelaide Secondary School of English or another school for the duration of their ISEC program.

Ongoing English language support is provided by all schools across the curriculum.

## Co-curricular sports and competitions

Schools offer the opportunity to participate individually or as a team member in any school-based activities including sports teams, student leadership, music bands, debating, drama productions and adventure activities.

For students interested in sport, it is important to understand that some sports are seasonal and are offered only at specific times of the year.

**This table shows the popular sports by season and is to be used as a guide only when applying.**

Summer sports	Winter sports
<ul style="list-style-type: none"> <li>• <b>Aquatics</b> swimming, sailing, kayaking, snorkelling, scuba diving, windsurfing, canoeing and surf lifesaving</li> <li>• <b>Athletics</b> track and field, triathlon, cross-country running</li> <li>• <b>Baseball</b></li> <li>• <b>Cricket</b></li> <li>• <b>Cycling</b></li> <li>• <b>Futsal (indoor soccer)</b></li> <li>• <b>Golf</b></li> <li>• <b>Rock climbing</b></li> <li>• <b>Rowing</b></li> <li>• <b>Softball</b></li> <li>• <b>Tennis</b></li> <li>• <b>Beach volleyball</b></li> </ul>	<ul style="list-style-type: none"> <li>• <b>Australian Rules football, touch football</b></li> <li>• <b>Badminton</b></li> <li>• <b>Basketball, netball</b></li> <li>• <b>Bushwalking</b></li> <li>• <b>Cross-country running</b></li> <li>• <b>Hockey</b></li> <li>• <b>Soccer (international football)</b></li> <li>• <b>Lacrosse, softcrosse</b></li> <li>• <b>Table tennis</b></li> <li>• <b>Rugby</b></li> <li>• <b>Outdoor education</b> bushwalking, orienteering</li> <li>• <b>Volleyball</b></li> </ul>

**“I am able to do my favourite sport, tennis, as a subject at school and there are lots of other subjects that you can choose like food and hospitality, dance and legal studies.”**

– Noah, Germany

# Chuyue's South Australian Journey

Hi! I'm Chuyue and my English name is Angela. I come from China and studied in South Australia. Let me take you through my South Australian adventure!

## Commenced my studies in Adelaide

Studied 2 terms of Intensive Secondary English Course (ISEC).

Received two academic excellence awards.

## Year 12

Elected International Prefect.

Co-founded the International Connect Program to help international students achieve their best and look after their wellbeing.

Co-arranged Infinite Echo, a student-based music festival.

Successfully completed my IB diploma with 40/45 (ATAR 98.30 equivalent).

Received 3 Principal's Awards during high school.

Received a Governor's International Student Award.

## Entered mainstream classes in Year 10

Became an active member of the school community.

Introduced my school and homestay to the traditional Chinese instruments of sheng and ba wu which I enjoy playing.

Joined the school concert band and performed in various assemblies and events.

## University of Adelaide

Commenced a Bachelor of Teaching and Bachelor of Mathematical and Computer Science.

Selected as a StudyAdelaide Ambassador to improve the experience and wellbeing of international students.

Met the Premier of South Australia and gave a speech at a media conference about international students studying in South Australia.

Selected as an International Peer Mentor and a member of Student Representation Council (SRC).

Joined the Traditional Chinese Orchestra at the University of Adelaide and performed on Chinese music day, OzAsia Festival.

Selected as one of the top 100 Australia future leaders by GradConnection.

## My Goals

My dream is to become a secondary school teacher in Adelaide and promote education in remote areas.

**“My teachers allow me to discuss my assignments and offer assistance if I have any issue or problem with my learning process. This has encouraged me to lift up my confidence.”**

“I have been living in Australia for two years and I am currently studying in Year 12. The Australian education system allows me to study subjects which are relevant to my future career. Although studying in Year 12 is challenging, I am still able to manage time to do other activities such as going to the gym, playing music and catching up with friends which really helps to reduce the pressure from study and improve my physical and mental wellbeing.

My teachers allow me to discuss my assignments and offer assistance if I have any issue or problem with my learning process. This has encouraged me to lift up my confidence. I have made friends from different countries which encourage me to improve my English in a joyful way.

My favorite experience in Australia is participating in an extra curricular activity named “Land Rover 4x4 engineering in schools.” This competition allows students to work together as a team to build a radio controlled four-wheel drive car. My role in the team is making graphic designs to represent the team’s appearance. Our team participated in the South Australian state competition and we made it to the Australian national final level and became winners of the program. This is one of the greatest achievements of my life. After the success from this competition, the happiness has passed through my friends and family and become one of the happiest moments in my life.”

– Charlie, Thailand

# Australian Science and Mathematics School

AUSTRALIAN  
SCIENCE &  
MATHEMATICS  
SCHOOL

asms.sa.edu.au

The Australian Science and Mathematics School (ASMS) is a specialist senior high school for Years 10–12 and is one of only two in Australia. It is located on the campus of Flinders University at the base of the Adelaide Hills, close to public transport, major shopping and cinema complexes and popular beaches. The goal of the school is to prepare students for university, particularly in the fields of mathematics and science. ASMS is an innovative purpose built school designed for highly collaborative and interactive learning, bringing leading edge developments in the 'new sciences' into the school experience. Students may also have the opportunity, as part of Flinders University's Science and Technology Enterprise Partnership, to be involved in research projects in the business, industry and university sectors. Students graduating from ASMS will be creative, critical, informed and motivated citizens responding to personal, professional and social issues.

# Ning's South Australian Journey

## Commenced my studies in Adelaide

Studied Intensive Secondary English Course at my school for two terms

I will never forget my experience of studying in Adelaide. I want to say thank you to my family, teachers and friends.

My teachers were always very patient and kind. Their support and encouragement helped me to develop my skills in writing and speaking English. I also built up my confidence to problem solve and overcome challenges.

## Year 12

Elected International Student Captain

Successfully completed my SACE

## Entered mainstream classes in Year 10

Began to make Australian friends

Enhanced my cultural understanding of Australia

## University of Adelaide

Completed a degree in Chemical and Pharmaceutical Engineering

### Today

I work in a pharmaceutical and biotechnological company in China.

# Brighton Secondary School

brightonss.sa.edu.au

## Distance from city

12 km

## Year of establishment

1952

## Number of students

1700

## Years

8–12

Brighton Secondary School is located in a popular seaside suburb west of the Adelaide city centre. The school achieves outstanding academic results and has provided music and volleyball graduates to some of the country's best youth orchestras, choirs, bands and the Australian Olympic Men's and Women's Volleyball teams. The school is close to a major shopping complex, State Aquatics Centre and is well serviced by train and bus routes. There is a focus on creative and critical thinking in the Think Bright program that enriches the learning experience for students who have demonstrated initiative, leadership, problem-solving skills, and an interest in rigorous learning. Brighton Secondary School is also involved in Formula One (F1) in Schools which has achieved National and World F1 Titles. This program provides students with opportunities in design, engineering, manufacturing, business and enterprise.

**“My experience in Australia will always be in my memory and the people I met and the friendships I made here will stay in my life forever”.**

– Eduarda, Brazil

“My experience in Australia will always be in my memory and the people I met and the friendships I made here will stay in my life forever.

I did Outdoor Education class and we did a lot of outdoor activities that we don't do in Brazil, like kayaking, surfing, bushwalking and rock climbing, so it was amazing to try a lot of new things.

Surfing was something that I always wanted to do in Australia, so I was really happy when the school told me that I was going to do ten surfing classes with the other students. The classes were better than I expected and South Australia's beaches didn't disappoint.

One of my dreams was to see kangaroos and it was amazing having this experience with my friends. We went to the wildlife park in the first week, so it was an awesome way to be welcomed here. We saw a lot of different animals that we don't have in Brazil and I want to be a veterinarian, so I loved the experience.

I was in dance class too, and it was amazing. My dance classmates made me feel welcome and we are close friends. Fixing the costumes, deciding the makeup and rehearsing with the girls was an unforgettable experience and I thank the school for the opportunity.”

# Heathfield High School

[hhs.sa.edu.au](http://hhs.sa.edu.au)

Heathfield High School is a co-educational public school for Years 8–12, set in the picturesque Adelaide Hills, only 15 minutes from the city of Adelaide. The school provides a stimulating, innovative and challenging curriculum, valuing the excellence achieved by its students in a multitude of both academic and vocational pathways. Each element of students’ learning experience is designed to present them with the education and workplace landscapes they will inhabit in the future. Access to futures-focused, state-of-the-art learning spaces including the STEM Centre for Learning, Innovation and Excellence; the Robotics and Control Technologies Centre; exceptional music, drama and art studios; the outstanding Piltarilla Skill Centre for Food and Hospitality training and the Mount Lofty Community Sports Centre, with its international-standard indoor and beach volleyball courts. These learning spaces enable students to connect with new advances and real-world situations preparing them for the future.

**“The teaching in Adelaide aims to develop the student’s group work skills and their creative and critical thinking. For year 12, I will keep learning specialist mathematics. For me, formulas and numbers are full of magic, it is very interesting to research it and prove the theorems. When I go to university, I will choose business and finance.”**

**- Zeyu, China**

# Norwood Morialta High School

nmhs.sa.edu.au

Norwood Morialta High School is a dual-campus school located in the leafy eastern suburbs of Adelaide, only 15 minutes from the city centre and 5 minutes from the busy shopping and restaurant precinct of Norwood Parade. The school, comprised of the Middle School (Years 8–10) at Rostrevor, and Senior School (Years 11–12) at Magill, is internationally accredited by the Council of International Schools (CIS) and the International Baccalaureate Organisation (IBO) Middle Years Program, and has a long-standing reputation for academic excellence. Future International Baccalaureate Diploma school in 2022. One of the unique features of the school is the way it values diversity. Students from a very wide range of cultural and linguistic backgrounds respect and learn from each other. This is supported by a curriculum which actively promotes international mindedness and an internationalised education.

**“My most memorable experiences in South Australia were the excursions in Art and Design and the trip to Kangaroo Island when I was in the ISEC class. That was awesome.”**

– Oan, Vietnam

The Australian school system is totally different to my home country.

In South Australia, there are only about 20 students in one class and that is a good point. In the Intensive Secondary English Course (ISEC) there are only about 14 students. Study from 9 am to 3:10 pm and have a break for 20 minutes in the morning and 35 minutes for lunch.

Students can choose their own subjects. Year 11 and 12 students only focus on five or six subjects that they are interested in. Students can use the internet for their research which is very good. There are lots of specialist rooms for cooking, music, trades, science laboratories and an art and multimedia centre.

I have made friends with other international students from China, Japan and Germany. I also enjoy learning with Australian students. Activities for students include sports day, special assemblies, girls surfing day, barbeques for international students and visits to the museum and local tourist sites.

I enjoy the clean environment in Adelaide and I always feel safe. My most memorable experiences in South Australia were the excursions in Art and Design and the trip to Kangaroo Island when I was in the ISEC class. That was awesome.

# Seaview High School

seaviewhs.sa.edu.au

Seaview High School is situated on a 10 hectare site in the picturesque southern hills face zone with clear views of the city and coastline. The school is within walking distance of the beach, close to Flinders University and a major shopping centre. # Wirreanda Secondary School

wirreandasecondary.sa.edu.au

Wirreanda Secondary School is situated in the southern suburbs of Adelaide close to beautiful beaches and the picturesque Fleurieu Peninsula and McLaren Vale wine region. The word 'Wirreanda' is an Indigenous Australian word for 'place where wallabies live under tall trees.' The natural bushland environment of the school provides the perfect setting for students to achieve their personal best. The school is well served by public transport, providing convenient and quick access to the Adelaide city centre. Wirreanda Secondary School is recognised as one of South Australia's premier specialist sport schools providing talented student athletes with pathways that support high achievement in an educational context. Students develop high level skills and an insight into sport-related studies including coaching, physiology and biomechanics.

- Lunchtime activity programs

**“My teachers are kind and it is fun to do things like drawing and craft at school”**

– Rui (Year 3), Japan

Rui’s mother says “We wanted our son to experience a broad range of things. Rui is also interested in lifesaving, and started weekly training to participate in the local lifesaving junior championships. Expanding his range of activities beyond school has increased his circle of friends and has helped him to become more and more used to life in Australia; he says that he has even started talking in his sleep in English!

At first there were things that confused us, but now we’ve gotten used to so much of it that life here is very easy. On weekends we get in the car and go to various places; the other day we even went to see whales. Within just an hours’ drive you can experience so much variety in nature which is so good for children.

It is good that Rui has experienced both Japanese and Australian primary schools so he can understand the good points of each and differences between them”.

**“We wanted our son to experience a broad range of things.”**

– Rui’s Mother, Japan

Stradbroke School is situated in the eastern foothills of Adelaide just 10 km from the city centre. It is a picturesque school adjacent to Fourth Creek and set amongst tall gum trees with a country atmosphere, and excellent opportunities for studies of the environment. Koalas are regular visitors. Stradbroke School provides a rich, diverse curriculum and a wide choice of extra-curricular activities which enables students to achieve their personal best within a learning environment which is both supportive and stimulating. Diversity within the school is highly valued and students from many cultural backgrounds learn and play together in an environment that promotes respect. Environmental education and both the International Baccalaureate Primary Years Program and Middle Years Program feature strongly.

## Year of establishment

1946

## Number of students

700

## Years

Reception–12

Kangaroo Island Community Education (KICE) is a multi-campus school which reflects Kangaroo Island's strong island community and history. Students come from all over the island by school bus to attend their local campus. Kangaroo Island is one of the world's pristine natural environments where visitors are greeted by sea lions basking on unspoiled white beaches and koalas dozing in lofty eucalyptus trees. It is a place that offers protection to huge populations of native Australian animals, as well as being a place where people can pursue their creative, environmental and adventure interests. The school provides students with exciting opportunities to interact with scientists, artists and craftspeople across the island as well as participation in practical activities such as native fish surveys and tagging, pelican studies and dolphin monitoring.

**“I wanted to improve my English but I’ve understood that being abroad has much more to do with culture and experience than simply language skills. I’ve become more independent, and confident in myself. Everything is so perfect: education, environment, safety and lifestyle.”**

**– Juliana, Brazil**

# Mount Gambier High School

mghs.sa.edu.au

Mount Gambier High School is located 460 km from Adelaide in the south-east of South Australia. Mount Gambier is the regional centre of the Limestone Coast, surrounded by the natural beauty of volcanic craters, lakes, limestone caves and underground waterways. The town is also close to beautiful beaches and wineries. Students at Mount Gambier High School are encouraged to participate in the broad scope of subjects and school activities on offer in order to enhance their career options and personal satisfaction. The school has special interest programs in sport and outdoor education that make use of the region's facilities and natural attractions. Students interested in creative arts can study dance, design, drama, media studies, music, theatre production and the visual arts. Mount Gambier High School is a specialist entrepreneurial school where entrepreneurial skills for aspiring business and social entrepreneurs are developed, practiced and used every day across every area of the curriculum.

# Port Lincoln High School

plhs.sa.edu.au

The small regional city of Port Lincoln is located on the shores of Boston Bay at the southern tip of the Eyre Peninsula, 650 km (by road) from Adelaide. Port Lincoln is the Seafood Capital of Australia, home to the country's largest commercial fishing fleet and renowned for its tuna, prawn, whiting, crayfish and oysters. The region boasts a myriad of fun activities from fishing and sailing, to diving with great white sharks, touring aquaculture industries and exploring the area's sheltered beaches and booming surf. Port Lincoln High School offers a broad curriculum ranging from traditional academic subjects to vocational education pathways including aquaculture and commercial cookery. Students are also provided with opportunities to participate in a wide variety of extra-curricular activities, such as camps/excursions, sports, leadership and community projects.

- Environmental group
- Makerspaces (hands-on design and making, using physical and virtual tools and materials): Minecraft, claymation, board games, book talks, coding, colouring, drawing

**“When I decided to study abroad, I was sure that I’d love to go to Australia. I decided to choose a school in South Australia, because I thought that the temperatures there would be the nicest for me. And I chose a regional school instead of a city school because I already live in a big city and always wanted to experience the countryside.”**

Emily, Germany

When it came to deciding about the city and school, I mostly made my decision by looking at three things:

- 1. The distance to the ocean.**
- 2. The subjects I could attend there.**
- 3. The school uniform.**

So, that’s how I got to Port Lincoln High school. It was close enough to the ocean, so I could just go swimming after school, which was pretty amazing! And they offered subjects like Outdoor Education, Food Technology or Woodwork which I was really looking forward to, cause I’d never get the chance to study them in Germany.

The people were so friendly and open-hearted. They showed me breathtaking beaches with white sand and turquoise water, delicious food and I got to celebrate traditional festivals like “Tunarama” with them. I got to go camping underneath millions of stars including the “Southern Cross”, next to free living kangaroos and then go surfing the next day. It was amazing!

All the normal days in school and average weekends were so great as well! Just being a part of the community there and living an average Australian life was actually the best I could’ve wished for. I actually have to say that I was looking forward to going to school every morning. I really enjoyed seeing my friends and all the nice people, wearing the school uniform and just having such fun subjects.

Of course though, I have to mention my time in the homestay as well. How could I not? I had a great host mum, Tamara, with the best and sweetest cat I ever met. Thanks to Tamara, I’m way more confident than I was before and just happy with myself – thanks to her, her family, my friends and all the amazing people I met. They made me feel so comfy and loved that I couldn’t stand not seeing them again so I decided to come back the next holidays.

All in all, I can just say that I loved my experience down under! It was the best decision I ever made! It changed my life.

# Willunga High School

whs.sa.edu.au

## Distance from city

47 km

## Year of establishment

1960

## Number of students

1100

## Years

8–12

Willunga High School is located south of Adelaide on the beautiful Fleurieu Peninsula, close to the hills and sea. With beautiful and expansive natural grounds, it is situated in the famous wine-producing region of McLaren Vale. This provides students with unique opportunities such as agriculture, horticulture (including viticulture), wine making, tourism and hospitality. The school has its own working vineyard, olive grove and small farm, producing its own grapes, olives and high quality wine along with the raising of sheep, dairy and beef cattle. Willunga is a small town filled with character and friendly people, and home to many festivals, including the fourth leg of the international cycling event Tour Down Under, the Fleurieu Folk Festival, Almond Blossom Festival and Willunga Christmas Tree Festival. Willunga High School has a long tradition of working with the community, and excellent teaching and learning with a focus on a positive learning culture for all.

“I chose to come to Adelaide because Adelaide is famous for art. I have been dancing for about eight years. So I was looking forward to learn dance as well.

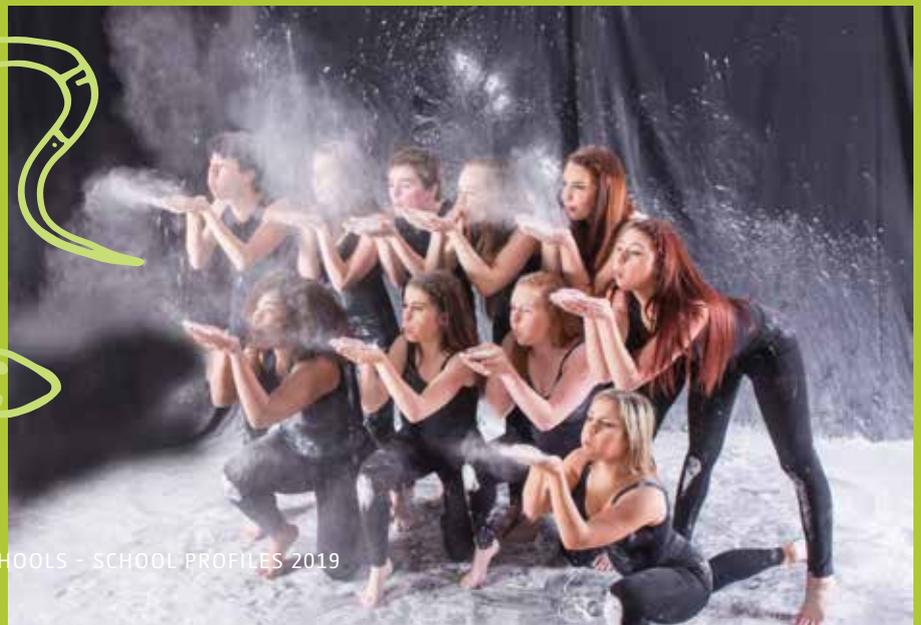

I am studying Year 11 but doing a Year 12 dance class. My Year 11 subjects are Photography, Modern History, Drama, Maths Applications, Furniture and English as an Additional Language. I decided to do these subjects because I wanted to study what I cannot learn in Japan.

I am also attending a Dance Studio as an extra. I usually have dance class on weekend. When I want to refresh and relax I go to beach with my friends and just have a fun time.

Because Adelaide is a small city, you can network with famous dance people and companies. I worked with famous dance choreographers and companies and I talked to these people in workshops. I love the Fringe Art Festival in Adelaide. My most memorable experience is a workshop with the Sydney Dance Company. That was amazing experience.”

## “I chose to come to Adelaide because Adelaide is famous for art.”

Koshi, Japan

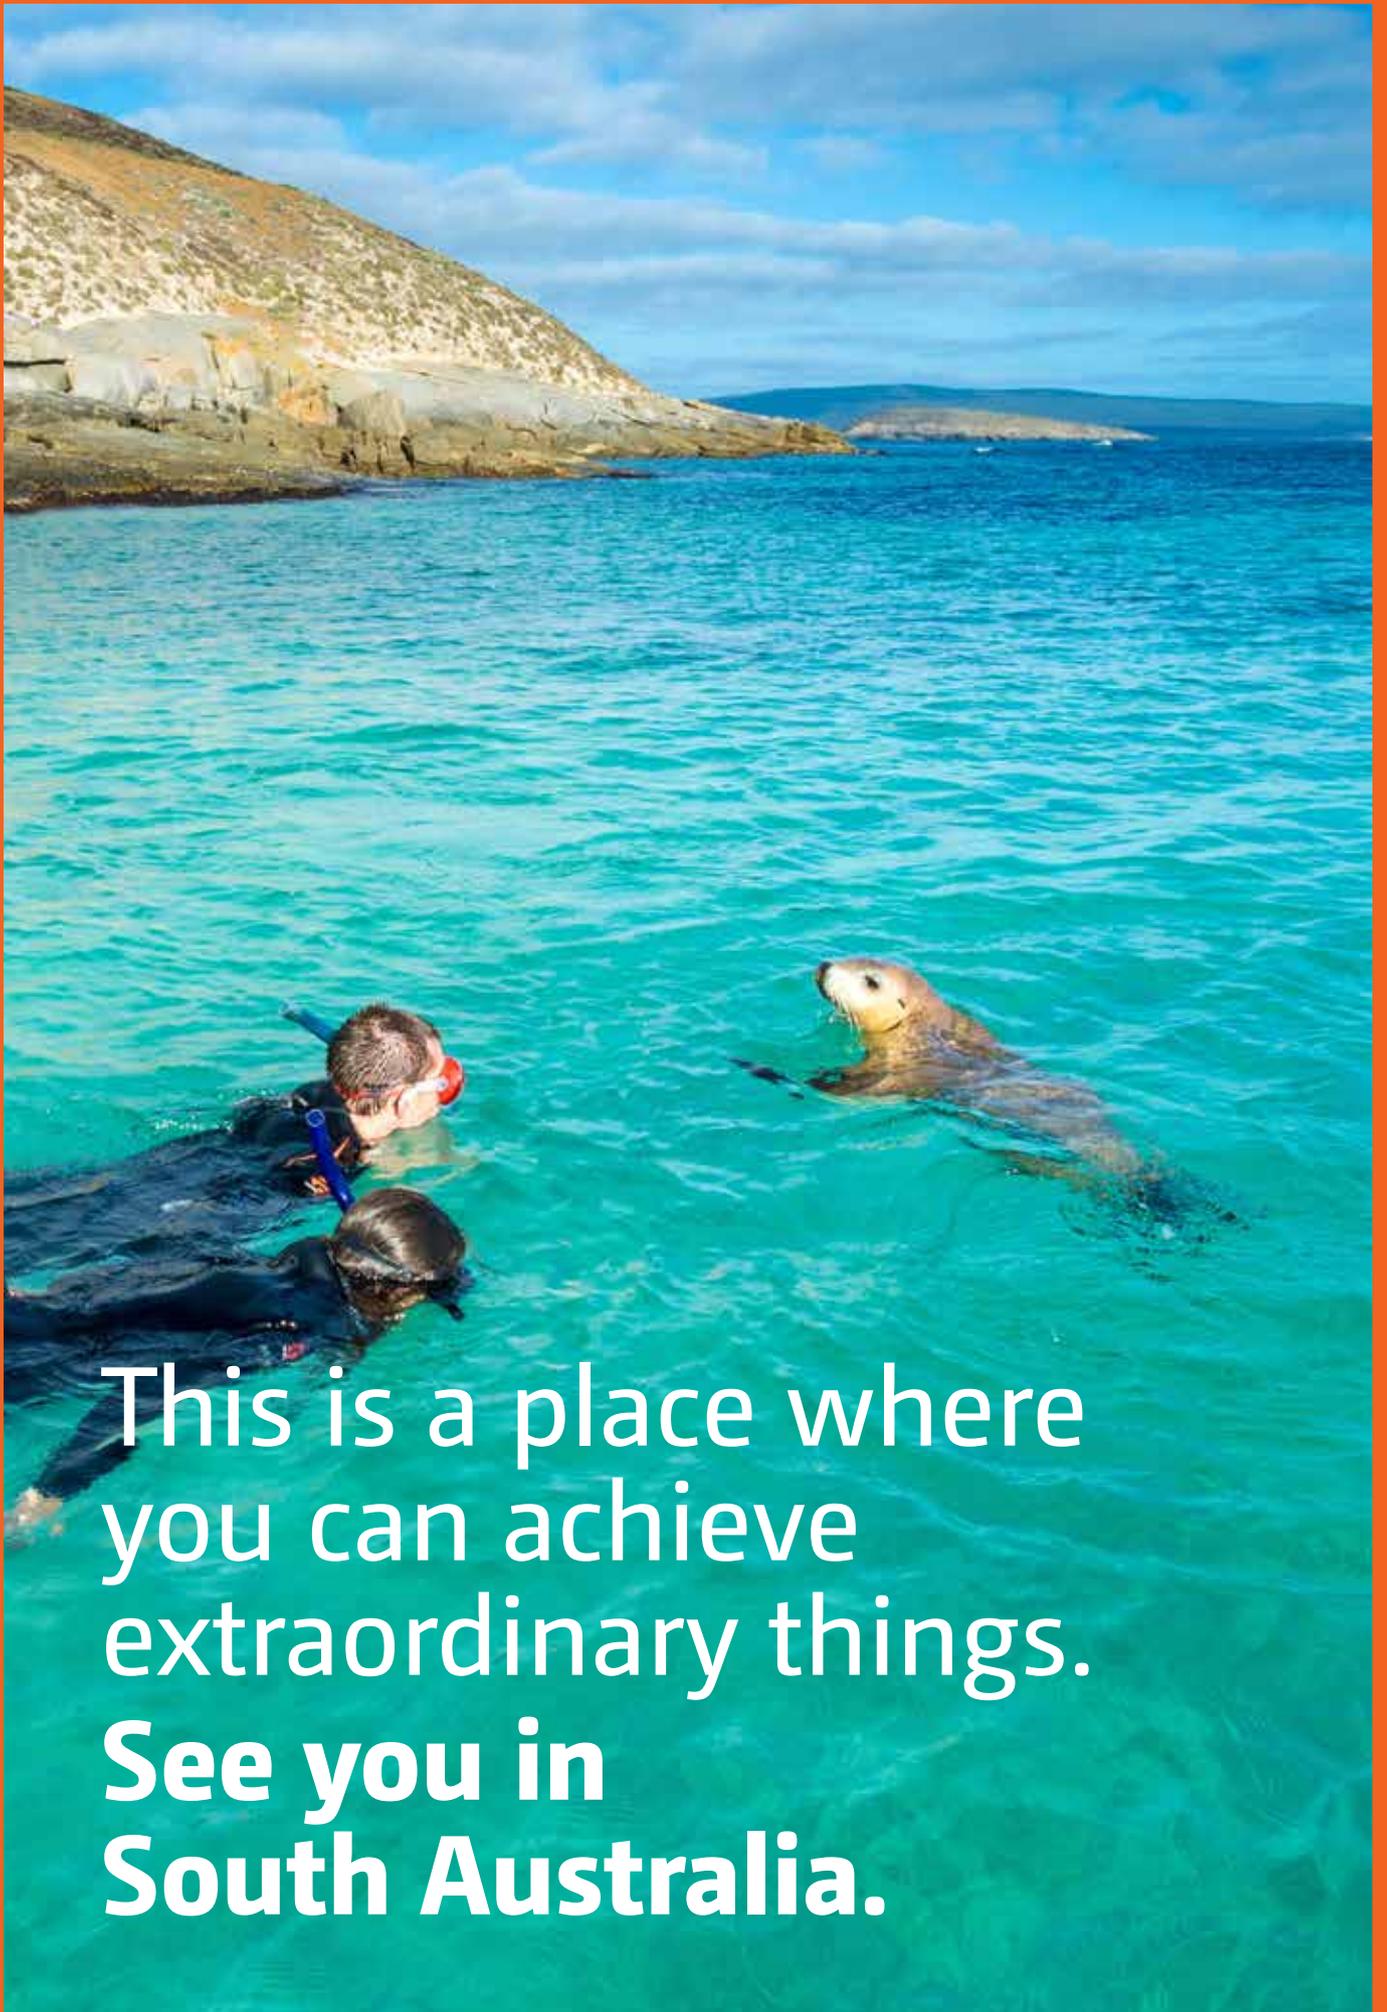

# Adelaide Metropolitan Primary Schools Matrix

School Name	School Focus	Languages	Co-curricular Sports
<b>Belair Primary School</b> Reception–Year 7	Literacy and Numeracy, Environmental Education, Japanese, Music, Information Communication Technology, IBPYP, IBMYP	Japanese	Soccer, Cricket, Softball, Netball, Australian Rules football, Basketball
